OPTIMAL VISUAL EXPERIENCE IN  
THE USE OF DIGITAL DEVICES

## OPTIMAL VISUAL EXPERIENCE IN THE USE OF DIGITAL DEVICES

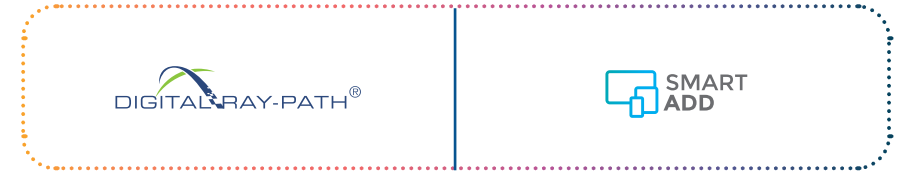

Nowadays, the use of electronic devices has increased considerably. In fact, **we usually use several digital screens simultaneously both our work and in our free time.**

### DESIGN DETAILS

Prisma Mobile is a **fully personalized high-end progressive lens** characterized by having a digital design and having been developed to adapt to the daily life of those wearers who make intensive use of electronic devices such as tablets, smartphones, smartwatches, etc. It offers wide fields **in distance and near vision as well as a smooth and comfortable transition.**

The progression between the visual zones is characterized by being **very smooth**, specifically between the intermediate and the near zone. This makes **the reading area wider, more comfortable and easier to reach.**
