

ADVANTAGES

- Extremely wide near vision region
- Dynamic vision thanks to **Smart Add technology**
- Very soft design that **eliminates swim effect** and perceived lateral distortion
- No adaptation issues
- **Clear vision** from reading distance up to 6 meters
- Many degenerations available for adapting to each wearer's needs
- Frame shape personalization available

TARGET

Ideal for presbyopes who spend a lot of time working at near and intermediate working distances such as office workers, chefs, painters, musicians, etc.

The most adapted lens for office work for intermediate and near vision.

SIGNIA OFFICE

AN OFFICE LENS WITH THE WIDEST
NEAR AND INTERMEDIATE
VISUAL FIELDS

AN OFFICE LENS WITH THE WIDEST NEAR AND INTERMEDIATE VISUAL FIELDS

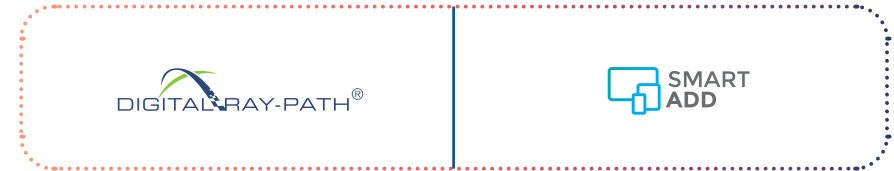

We spend many hours a day in front of digital screens, especially when we do office work. It is important to use a lens that **gives us the versatility our eyes need for a constant change of directions of gaze and focus.**

In addition, with good vision in the performance of these functions, **our body posture will also improve avoiding injuries and muscle pain.**

DESIGN DETAILS

Signia Office is an **occupational lens for intermediate and near vision** that really brings **visual comfort** to the wearer. The step between fields is more dynamic, offering **greater agility to change the focus to different distances**, especially when working with digital displays.
