An astonishing free-form fully
personalized progressive lens
for all ways of lives

Have you ever thought how many people there are in the world? Everyone is different from everyone else, so we need a lens that really consider this.

That is why we have engineered **Prisma ID**, a lens that adapts to everything and everyone. No matter what you like, what you do... Prisma ID always adapts to you, to the way you live, that is, to your lifestyle. This is possible thanks to **a truly disruptive design and cutting-edge technologies that enable people like you to live in total freedom and safety.**

TARGET

- Those looking for the best visual quality or who **want the most innovative solutions.**
- **Digitally connected wearers** looking for maximum visual comfort.
- Wearers with **all types of prescription and addition powers.**

TECHNOLOGIES

Prisma integrates the most outstanding optical technologies of the industry:

IOT Digital Ray-Path 2

This state-of-the-art technology **reduces the blur of both sides of progressive lenses to a minimum.**

The result?
The clearest vision ever seen.

Steady Methodology

Lenses with Steady Methodology offers **great image stability by reducing visual instability.**

BENEFITS

- Amazing vision
- Wide visual fields
- Precise and comfortable focus
- Near elimination of peripheral blur
- Superior visual quality for viewing digital devices
- Higher image stability
- Improvement of peripheral visual quality in the distance zone
- Fully personalized progressive lens
